### Our Story...

Boston MedFlight was founded in 1985 by our Boston-area hospital partners which include Beth Israel Deaconess Medical Center, Boston Children's Hospital, Boston Medical Center, Brigham and Women's Hospital, Lahey Hospital and Medical Center, Massachusetts General Hospital and Tufts Medical Center. Since our founding 38 years ago, BMF has treated patients and their families with compassion and expert care in life-or-death medical emergencies. In short, we provide critical care medical transport 24/7/365 with our vehicles serving as mobile Intensive Care Units.

Last year we transported over 6,100 patients by air and ground, and since our founding have transported over 100,000 patients. The need for our services has grown enormously over the years and we transport patients regardless of their ability to pay. In the past year alone, we provided over \$7 million in free and unreimbursed care to patients in dire need who were underinsured or uninsured.

Since we are a 501(c)(3) nonprofit organization that receives no state or federal funding, we depend on philanthropic support from thoughtful donors and sponsors like you. Your generosity makes a huge difference in our ability to provide these emergency transport services. On behalf of all of us at Boston MedFlight, thank you for your consideration and important support.
