- Responsible to have a thorough knowledge of and compliance with Federal Aviation Regulations (FAR); Aeronautical Information Manual; Boston Med Flight's (BMF) General Operations Manual guidelines (GOM), and Manufactures Aircraft/Component Maintenance Manuals as applicable.
- Documents discrepancies and makes repairs per the AMM and or the GOM as applicable.
- Performs repairs, scheduled and unscheduled maintenance activities to the assigned aircraft.
- Coordinates ordering of parts, supplies, tooling and warranty claim with the Parts / Logistics Coordinator (PLC).
- Coordinates aircraft maintenance scheduling with the DOM or designee.
- Maintains a clean, safe, and orderly work environment
- Prepares and maintains documentation related to work activities in accordance with regulations.
- Corrects any hazardous or unsafe practices and reports them accordingly to the Quality Assurance / Control Inspector (QACI) or the DOM as applicable.
- May occasionally require work on weekends, holidays and after business hours as needed or directed by the DOM or aviation management.
- Performs similar duties on an on-call basis as directed by the DOM and BMF policy.
- Weekend call and holidays as directed by the DOM and BMF policy.
- Travel to and between BMF base sites as directed to assist with the maintenance needs of the program.
- Attends monthly staff safety meetings when not on shift, required crew rest or leave time.
- Performs other duties as assigned.

SKILLS AND ABILITIES:

- Ability to read, write and understand the English language.
- Ability to build and maintain positive relationships with team members in the flight department and throughout BMF.
- Ability to apply regulatory and technical information to various situations.
- Ability to analyze and troubleshoot technical/inspection issues; provide guidance and resolution to problems and issues with the aircraft.
- Ability to conduct activities requiring lifting, carrying, pushing or pulling up to 50 lbs. on a frequent basis.
- Operates hand and power tools measurement instruments designed to maintain the aircraft.
- Operates hoists, trucks and ancillary support equipment as necessary.

BOSTON Med Flight

Your Life. Our Mission.
